The Acting Town Clerk and Chief Executive reminded Council of the background to the choice of preferred site for the regional landfill site by the North West Regional Waste Management Group (NWRWGMG).

Mr. Wallace introduced the members of B. Mullan & Sons, who were present at the meeting and outlined their responsibilities in the Company.

Mr. Baskin presented a detailed breakdown of the development of the landfill site to date including:

During a period of discussion, Messrs. Baskin and Wallace answered members' questions and clarified various issues. In response to members' concerns, the representatives confirmed B. Mullan & Sons intention to consult with the local community and to keep them informed of developments at the site.

Members also expressed concern at the possibility that three further sites in the area were also under consideration for waste management use; not, however, commissioned by the NWRWMG.

The Mayor thanked the representatives for their informative presentation and advised that an opportunity for local residents to view the engineered landfill site at Craighulliar could be arranged, through elected representatives, if requested.

2.0 TECHNICAL SERVICES REPORT

The Report of the Director of Technical Services was considered (previously supplied).

Stuarts Gardens and
Strand Road
Portstewart

Consideration was given to information on this topic, as detailed in the report.

Recommended:

- (i) That Council support the proposed waiting restriction at Stuarts Gardens, Portstewart;

- (ii) That Council ask Roads Service to reduce the 'NO WAITING AT ANY TIME' proposal at Strand Road, Portstewart on the north west side from 60m to 30m.

A member requested a progress report on parking issues at The Promenade, Portstewart. The Senior Technical Officer advised that the topic would be discussed at a Leisure and Environment Committee meeting as soon as amended plans had been received from the Roads Service.

2.2 Entertainment Licence

2.2.1 Portstewart Royal British Legion Club 21 Lever Road Portstewart

An application for a grant of an Entertainment Licence had been received from Mr. R. H. Bennett, c/o Portstewart Royal British Legion.

Days and times on which it is intended to provide entertainment:

Sunday 12.30 a.m. – 10.00 p.m.
Monday – Saturday 11.30 a.m. – 11.00 p.m.
each day but on those occasions when a late licence is granted then 11.30 a.m. – 1.00 a.m.,
Sunday 12.30 p.m. – midnight.

Recommended:

That the Entertainment Licence be granted with the inclusion of a special condition:

- All door supervisors employed within the licensed premises must be registered with a scheme recognised by Coleraine Borough Council.

Several members enquired about the scope to include other conditions in the Entertainment Licence. The Director of Environmental Health answered members' various questions, advising that a new Code of Practice currently under consideration, would be introduced later in the year and would help address some of their concerns.

2.3 Annual Tenders - 2008-2009

Two tenders were received for timber, viz:

<u>Tenderer</u>	<u>Amount</u>
H. & T. Bellas Ltd., Coleraine	£4997.42
* Jacobs Building Centre, Coleraine	£3469.38

* Incomplete Tender

Recommended:

That Council accept the tender from H. & T. Bellas Ltd., for the sum of four thousand, nine hundred and ninety-seven pounds and forty-two pence (£4997.42).

2.4 Supply and Installation of a Wind Turbine at Garvagh Amenity Site

Following advertisement for the supply and installation of a wind turbine at Garvagh Amenity Site, four tenders were received, viz:

	<u>Tenderer</u>	<u>Amount</u>
1.	J. A. Graham, 3 Carmavy Road, Crumlin	£23,000
2.	Frontier Energy Ltd., Killyliss Road, Eglis, Dungannon	£38,630
3.	Pipeline Renewable Services, Dargan Crescent, Belfast	£43,497
4.	Greenpark Energy Systems Ltd, Camlough Road, Newry	£51,050

Recommended:

That Council accept the lowest tender from J. A. Graham for the sum of twenty-three thousand pounds, (£23,000).

Members noted that, whilst the turbine was not grant aided, it was better value than an N.I.E. supply.

2.5 Tender for Laboratory Analysis Services

Following public advertisement for laboratory analysis services, three tenders were received, viz:

	<u>Tenderer</u>	<u>Amount</u>
1.	Alcontrol Laboratories	£58,091.72
2.	Seven Trent Laboratories (STL) Ltd.	£78,669.00
3.	McQuillan Envirocare Ltd.	£89,599.30

2. Geotechnical & Environmental Services	£53,492
3. Glover Site Investigations Ltd.	£61,592
4. Stratex	£70,783
5. Grand Check Ltd.	£106,557

Council's consultants, R.P.S., on reviewing the tenders noticed greatly reduced rates in the lowest tender for a certain item compared with other tenders. The tenderer, Whiteford Geoservices, was contacted to check the rates and they subsequently withdrew their tender.

Recommended:

That Council accept the tender from Geotechnical and Environmental Services for the sum of fifty-three thousand, four hundred and ninety-two pounds (£53,492.00).

2.7 Tender for Transportation of Leachate from Craigahulliar Landfill Site to Riversdale Pumping Station

Following advertisement for transportation of leachate from Craigahulliar Landfill Site to Riversdale Pumping Station, two tenders were received, viz:

<u>Tenderer</u>	<u>Amount</u>
1. Summerisland Waste Management	£2.37 per m ³
2. Road Safety Contracts Ltd.	£2.40 per m ³

The current supplier for this service is Road Safety Contracts. During the winter, both companies were contacted with regard to the movement of an additional volume per day. Road Safety Contracts offered the additional service and Summerisland declined saying they had no tankers.

Recommended:

That Council accept the tender from Road Safety Contracts Ltd., for the sum of two pounds and forty pence (£2.40 per m³).

A member enquired if the leachate could be piped to Portrush or the sewage system. The Technical and Waste Management Officer advised members that this was being explored.

2.8 Petroleum Licences – Conditions

Consideration was given to information on this topic, as detailed in the report.

Recommended:

That Council adopt the following conditions:

Tanks and Pipework Test Certification

- Single skin tanks should be tested when 20 years old, 25 years, 30 years and every 2 years thereafter, or as deemed necessary by the Licensing Authority.
- Conventional steel or GRP pipework or other systems incorporating joints below the ground. Test every 5 years until year 30 and then every 2 years thereafter.
- Continuous flexible pipework (including those with thermo-welded joints). Test every 10 years.

These recommended frequencies should only be used as a guide and where a more reliable leak detection system is in operation there should be a site specific risk assessment provided.

Leak Detection and Prevention Systems

Where an appropriate leak detection and wet stock control system is in place and is properly operated and monitored, there may be no need to carry out periodic tank or pipework leak testing.

The system chosen must have the level of accuracy and reliability in detecting leaks that is commensurate with risks identified at the site.

The site operator must demonstrate his or her capability in providing the relevant data produced by the system in a form acceptable to the licensing authority.

These conditions pertaining to a Petrol Storage Licence would come into effect for the incoming licence period 2008/2009.

2.9 North West Region Waste Management Group (NWRWVG)

The Acting Town Clerk and Chief Executive explained the delay in progressing the Memorandum of Understanding (MoU) for the NW/SWaMP Joint Project and outlined a number of legal issues relating to the matter. Members noted that following legal advice and discussions with the Deputy Secretary, Department of the Environment, the joint group would split and the NWRWVG would proceed in having the MoU prepared for signing and sealing by the Group's member Councils.

2.10 Northern Ireland Landfill Allowance Scheme (NILAS)

Consideration was given to information on this topic, as detailed in the report.

The Acting Town Clerk and Chief Executive advised members that in order to achieve the targets set for the diversion of waste from landfill and to avoid penalties, potentially up to £525,000 in the year 2009/2010, Council must divert an additional 3500 tonnes of biodegradable waste from landfill in that year. He explained that it could be achieved in one of two ways:

- (i) The delivery of residual black bin waste to a MBT plant for treatment at £260,000 or
- (ii) The introduction of a third bin (brown) for compostable kitchen/garden waste at £193,000.

Although the black bin option would be more expensive, it would guarantee the reduction in waste going to landfill and avoid penalties with greater certainty.

After a period of discussion, it was proposed by Councillor Deans, seconded by Alderman McClarty and agreed by eleven votes for and three against that:

Council implement the black bin option in order to achieve the targets set for the diversion of waste from landfill and to avoid penalties in 2009/2010.

2.11 For Information

2.11.1 Building Control

(a) Approvals

Members noted that approval had been granted for 32 applications.

The Report of the Director of Leisure Services was considered (previously supplied).

Matters arising:

4.1 Somerset Riverside Park

Members noted that the pathway would be resurfaced and widened to provide a much superior access facility. The scheme would cost approximately £45,000. Funding had been secured from the Lower Bann Partnership and the Department of Culture, Arts and Leisure had committed an 'in-kind' contribution of £15,000. An allowance for the remaining £15,000 had been made in Council's Capital Programme.

4.2.1 Causeway Museum Service - Community Outreach Officer

Reported that a three year funding package had been received from the Heritage Lottery Fund for this post which would terminate in May 2008.

The Community Outreach Officer has been working with local communities in Coleraine, Moyle, Limavady and Ballymoney Council areas.

The three other Councils are supportive of providing funding to extend the contract for a further three years, subject to annual review. An allowance has been made in the 2008/09 revenue estimates.

It was proposed by Alderman Mrs. Black, seconded by Councillor Deans and recommended:

That Council contribute funding to this post.

4.2.2 Market Yard Update

Members noted that following the unsuccessful application to Heritage Lottery Fund in December 2007 the Market Yard Working Group have been exploring other potential funders. Ms. Perry is now preparing a new revised application for autumn submission.

The Mayor welcomed the following representatives from the Alzheimer's Society, who were in attendance to make a presentation on the work carried out in the Coleraine area:

Ms. Thelma Abernethy, Area Manager;
Mr. Adrian Friel, Causeway Outreach Worker;
Mr. Edward McAuley, Carer and Causeway Branch member;
Mr. Ian Cooke, Causeway Branch member.

The Mayor extended a warm welcome to Councillor Cole on his return to the Chamber following his illness.

The presentation proceeded as follows:

- Mr. Edward McAuley gave members an insight into his life as a carer. His wife had suffered memory loss from 1993 and had been diagnosed with dementia in 1999. She had to be admitted into a care home with elderly and mentally infirm facilities where she still resides.

Due to his experiences Mr. McAuley became actively involved in the Alzheimer's Society in order to try and help other people in the same situation as himself.

- Ms. Thelma Abernethy elaborated on the work of the Alzheimer's Society in Northern Ireland highlighting the following factors:

- The Alzheimer's Society vision is of a radically improved world for people with dementia;
 - 16,000 people in Northern Ireland have dementia and the number is expected to rise to over 47,000 by 2051;
 - 1,017 people in the Causeway area and 4,025 people in the Northern Board area have dementia;
 - Dementia types – Alzheimer's disease, vascular and mixed dementia;
 - 53% of people live in private households and 47% live in care homes;
 - The World Health Organisation states that for those aged over 60 dementia causes more years lived with disability than stroke, cancer or cardio vascular conditions.
- Mr. Adrian Friel gave members an insight into his work as an Outreach Worker in the Causeway Area Service which is based at Rosebrook House, Brook Street, Coleraine:
 - Mr. Friel explained how emotionally and physically draining it can be for families especially when the carers have no support;
 - £3.7m spent by the Government on research into Alzheimers compared to £33m spent on research into cancer;
 - The Outreach Service provides independent information, support and signposting of services to people with dementia and their carers;
 - There are 5 carers' support groups – 2 in Coleraine, 1 in Ballycastle, 1 in Ballymoney and 1 in Garvagh;
 - The Service provides visits, information evenings, presentations to local community groups/local college students, respite care, trips for carers/people with dementia and works with nursing homes.
 - Mr. Ian Cooke referred to the experiences encountered during his recent diagnosis of short term memory loss:
 - Line of diagnosis – from appointment with GP until diagnosis eight weeks later;
 - Support received from the Causeway Outreach Service;
 - Suggested means of helping people with dementia and their carers.

Following discussion, during which members expressed their thanks to the representatives, it was proposed by Alderman McClarty, seconded by Councillor Barbour and unanimously agreed:

That Council:

- Write to the Minister for Health making an appeal for extra resources in order to make dementia a health and social care priority for Northern Ireland;
- Write to the Chief Executive of the Northern Health and Social Care Trust informing her of the letter to the Minister of Health and requesting that a business case be instigated;
- Forward a copy of the letter to the Minister for Health to each member of the Health Committee at the NI Assembly.

The representatives were advised to make application to Council officers to ascertain if the Alzheimer's Society would qualify for grant support from Council's small grant scheme.

The Mayor thanked the representatives for attending and making such an interesting and informative presentation.
